**SALT LAKE COUNTY AGING SERVICES**

Greetings,

Welcome to the 2011 edition of the 55+ Senior Resource Directory. This booklet puts a myriad of services including long-term care facilities, home health agencies, housing services, crime prevention resources and more at the fingertips of Salt Lake County's senior population.

Our vision for Salt Lake County is becoming a nationwide leader in serving vulnerable populations, including isolated seniors, by assisting them to live and succeed in their communities. We are committed to ensuring that the 55+ population has easy access to the services and service providers they need.

We value our seniors for their knowledge, wisdom and experience. Senior citizens make up a large portion of our force of vital volunteers who do so much for our Salt Lake community. We thank them for their continued service and dedication. And we thank the families and caregivers who provide such valuable assistance to our elderly residents who need aid.

This directory is made possible by all the sponsors and Salt Lake County Aging Services Outreach Program. Their work ensures this resource is available to our seniors.

I hope you find this directory to be useful in your homes and workplaces. Keep it handy. If you have any questions about services and resources, please call Salt Lake County Aging Services 801-468-2480.

Additional information is easily available on our website at <http://www.aging.slco.org>.

Sincerely,

**Part A (Hospital Insurance):**

Most people automatically get Part A coverage without having to pay a monthly premium. Part A helps cover your inpatient care in hospitals. This includes critical access hospitals and skilled nursing facilities (not custodial or long-term care). It also helps cover hospice care and home health care. You must meet certain conditions to get these benefits.

**Part B (Medical Insurance):**

Part B is optional and has a monthly premium that can be automatically deducted from your Social Security check. Part B helps cover medical services like doctors' services, outpatient care, and other medical services that Part A doesn't cover. Part B helps pay for covered medical services and items when they are medically necessary. Part B also covers some preventative services.

**Part D (Prescription Drugs):**

Part D is optional and has a monthly premium that can be automatically deducted from your Social Security check. Part D helps cover prescription drugs. There is extra help to pay for prescription drug costs if you have limited income and resources.
